### Learn2b

Learn2b specialises in supporting people's recovery from mental health difficulties through learning and education. Learn2b is not therapy and the courses can run alongside any other form of help, support, education or training learners may be receiving. Learners are at the heart of every session; we recognise that some days we can feel unmotivated or low, and we accept that is okay. By attending our courses, people soon learn that they are not on their own; they will discover that other people experience similar things to themselves and find some common ground, often leading to a peer to peer support network. If you are new to Learn2b you will be contacted by our Learner Support Advisor to have a brief conversation with you prior to enrolling on to the course.. Email [alsreferrals@northnorthants.gov.uk](mailto:alsreferrals@northnorthants.gov.uk) if you would like some help accessing Zoom.

### Course aim

Learn how to reuse and repurpose old cards, magazines and photos into pieces of art, using your emotions to guide you.

### Course outcomes

- a) Use existing photos/images/text to create new artwork reflecting positive thoughts and emotions
- b) Use a collage technique to add visual interest to your individual artwork

### How will the course be taught?

A variety of teaching methods will be used which may include group discussion, worksheets, practical activities etc., relevant to the course subject. Handouts may be emailed to you after the session to support your learning.

### What do I need to bring/have ready?

From your own resources, you can bring images and words from magazines, some scrap paper e.g. old cards and envelopes. A notebook and pen may be useful if you wish to take notes. A supply of course resources will be available at the workshop, including marker pens, glue and scissors.
