### Learn2b

Learn2b specialises in supporting people's recovery from mental health difficulties through learning and education. Learn2b is not therapy and the courses can run alongside any other form of help, support, education or training learners may be receiving. Learners are at the heart of every session; we recognise that some days we can feel unmotivated or low, and we accept that is okay. By attending our courses, people soon learn that they are not on their own; they will discover that other people experience similar things to themselves and find some common ground, often leading to a peer support network. If you are new to Learn2b you will be contacted by our Learner Support Advisor to have a brief conversation with you prior to enrolling on to the course. Email [alsreferrals@northnorthants.gov.uk](mailto:alsreferrals@northnorthants.gov.uk) if you would like some help accessing Zoom.

### Course aim

Practice achieving different visual effects with coffee and water, through creative and playful experiments.

### Course outcomes

- Use coffee to achieve an expressive paint effect
- Identify how simple household items can be used to create a piece of expressive artwork

### How will the course be taught?

A variety of teaching methods will be used which may include group discussion, worksheets, practical activities etc., relevant to the course subject. Handouts may be emailed to you after the session to support your learning.

### What do I need to bring/have ready?

From your own resources, a notepad and pen may be useful if you wish to take notes.  
A supply of course resources will be available at your workshop.
