During this one day workshop, you will:

- Learn how to observe and interpret the human figure, focusing on shape, balance, and proportion.
- Build a simple armature or base structure to support your sculpture.
- Explore techniques for constructing the body, including modelling limbs, torso, and posture.
- Understand how to add movement, character, and expression to your figure.
- Use essential sculpting tools to refine details and develop form.
- Experiment with surface texture and finishing options.
- Create your own clay figure to be fired and collected at a later date.
