Start Date: 09 September 2024
End Date: 16 September 2024
Start Time: 6:00PM
End Time: 8:00PM
Day: Monday
Sessions: 2
Tutor: Mrs Farhat Faizan

ZZ99 9ZZ **Room** Online Classroom - Google

What will I learn?

You will explore more about the expectations of the Functional Skills course and begin to explore some of the content that you can expect to cover during the Functional Skills Course. It is a great opportunity to ask questions and find out more information as well gain some foundational knowledge that will help set you up for the course start.

You will also develop your confidence and skills working within a selection of Mathematical topics relevant to this course including Number, Measures, Shapes and Data.

What will I need to take part?

You may choose to bring a notepad and pen to record notes if you would like.

What to expect?

This course is delivered in a face to face setting. This course is a FREE course funded by Multiply which is designed to develop confidence and skills in adults and learners.

Where can it lead to?

Feeling confident with numbers helps in every aspect of life, from measuring food ingredients, mixing hair dye and checking invoices, to helping the children with their homework or even setting up in business. There is no such thing as someone who 'can do maths' and someone who cannot. It's learning in the right way for you that will help you get on in life. This could be applying for a new job, improving career prospects, budgeting at home, helping the kids or saving for the future. You don't need to become a maths expert to do this.

With the current increase in the cost of living, it adds up that now is time to improve your own skills in working with numbers. Those who improve their numeracy skills are more likely to be in employment, have higher wages and better wellbeing.

This course may open up other Maths opportunities for you including other Maths courses such as Functional Skills Maths.

Course eligibility and fees

Multiply is a 3 year programme funded through the Department for Education aimed at supporting adults to increase their skills in numeracy. Those who improve their numeracy skills are more likely to be in employment, have higher wages and better wellbeing.

Our free numeracy courses are for individuals:

- resident in North or West Northamptonshire, aged 19 and over
- that have not achieved a maths GCSE of at least a Grade C or equivalent
- who may want to develop numeracy skills for work or progression
- that want to brush up and develop their numeracy skills for everyday life.

Northamptonshire Adult Learning Service work in partnership with National Careers Service advisers who can provide information, advice and guidance on skills, learning and work. National Careers Service can be contacted by telephone 0800 100 900 or text your name and the word ADVICE to 07766 413219 and an adviser will call you back for free or go to <https://nationalcareersservice.direct.gov.uk/>
