`Be a Better Gardener...`

This course is part of a series of short courses that aims to help you become a better gardener, whether you are just starting out or already have well-developed 'green fingers'. For more information about the series please see the final section of this document.

Course aim

To provide you with the knowledge and skills to propagate vegetable and ornamental plants, trees, and shrubs for your garden, from seed, by cuttings and by division etc.

Course outcomes

- (a) Grow plants from seed successfully (under cover and outside)
- (b) Save your own seeds and store them
- (c) Divide and layer existing plants successfully
- (d) Take cuttings (softwood, semi-ripe, hardwood and leaf) and grow them on successfully.

How will the course be taught?

The course will be taught online via Zoom and will be a live interactive class. The course also has a course web site on Moodle - including information, videos, activities, and discussion spaces - to enhance your learning.

Joining instructions (along with your Moodle login details) will be emailed to you by our support services team prior to the course start date so please check your email address prior to the class.

Could I gain a certificate?

The course is not certificated.

What do I need to bring / have ready?

You will need: Pen and paper, suitable device to access the Zoom call and Moodle (laptop or tablet is ideal, functionality may be limited on phones), internet access, your Zoom and Moodle login details. Course study materials are available on the course Moodle site - if you are unable to use the Moodle site because of disability please advise when booking or tell your tutor in advance of the first session so adjustments can be made.

AZZ3BA36 - New Plants For Your Garden

Further information

This course forms part of a series of courses for new gardeners, or experienced gardeners who would like to brush up their knowledge or get a new perspective. The aim is to introduce the techniques of gardening, and the reasons why we do things in a particular way to get good results. There is a particular focus on environmentally sensitive gardening, but this is a series for all gardeners.

The series covers the following areas (select the ones that are appropriate for you - no need to do them all):

- a) The Healthy and Sustainable Garden. (6 Weeks) starting 2022/23
- b) New Plants for your Garden (propagation) (5 weeks) starting 2022/23
- c) Grow your own vegetables and fruit (7 weeks) starting 2023/24
- d) Your ornamental garden (6 Weeks) starting 2023/24
- e) Introduction to Garden Planning and Design. (6 Weeks) 2022/23 and onwards
