### Course Description

This is an introduction to digital photography focussing on two popular and eye catching techniques. The course is online learning using Zoom for delivery.

### Course Outcomes

Learners will be able to take Bokeh image  
Learners will be able to produce a photo stack image.

### How will the course be taught?

The course will be taught online via Zoom and will be a live interactive class  
Joining instructions along with unique log in for the session will be emailed to you by our support services team prior to the course start date so please check your email prior to the class.

### What do I need to bring?

A computer, laptop, phone or tablet connected to the internet and able to view a live video stream.  
We also recommend that you have a pen and notepad to hand during the sessions.  
For the Bokeh session you will require some fairy lights & an object.  
For the stacking process you will require to have Photoshop elements of Photoshop on your computer or laptop.

### Further support or progression

When you enrol, please let us know if you require additional personal support to participate in this course.
