End Time: 12:30PM

Day: Thursday

Sessions: 2

Tutor: Mrs Virginia Antunes

Course aim

The aim of this course is to explore two common mental health issues: depression and anxiety. The course will address some of the reasons why these two mental health disorders are common in today's society, as well as their main symptoms. Class discussions will aim at helping learners better understand these disorders, be more able to recognise them in others and understand better those around them who suffer from these issues.

Course outcomes

- a) Recognise the prevalence and impact of depression and anxiety
- b) Identify five types of anxiety
- c) Identify five main symptoms of depression
- d) Identify three key Cognitive-Behavioural (CBT) techniques that can be used as self-help

How will the course be taught?

The course will be taught online via Zoom and will be a live interactive class. Joining instructions along with unique log in for the session will be emailed to you by our support services team prior to the course start date so please check your email address. To take part in the course learners will need either: a computer or laptop, phone or tablet connected to the internet and able to view a live video stream.

What do I need to bring / have ready?

Pen and paper.
