Delapre Community Rooms
Alton Street
Northampton

NN4 8EN **Room**

Start Date: 01 March 2022
End Date: 29 March 2022
Start Time: 1:00PM
End Time: 3:00PM
Day: Tuesday
Sessions: 5
Tutor: Mrs Katherine Richmond

Course aim

This course is the perfect progression course from Jewellery Making for Beginners (Part 1) and is suitable for beginners and for those with some experience of making jewellery who would like to focus on developing basic skills in both making and design. You will be guided through the steps to make a range of jewellery items such as a bracelet, earrings, necklace and develop skills in how to use basic jewellery making tools and equipment, how to incorporate found items into your designs, how to make and secure simple findings, how to create interesting surfaces on the metal such as textures and patinas and how to make simple chains. You will mainly be working with beads, metal wires and findings and a small amount of copper, and can expect to make at least 3 finished items of jewellery.

Course Outcomes

1. Use pliers, files and forming tools to make jump rings and a simple chain
2. Design and make bespoke components incorporating found objects
3. Select appropriate tools and materials to make jewellery items including a bracelet, earrings and a necklace
4. Make a simple clasp using wire
5. Create interesting surfaces on the metal such as textures and patinas.

How will the course be taught?

The course will be taught through practical demonstration, 121 support, individual projects, handouts and group activities. It is a practical, hands on course where you will be able to explore using the wide range of tools and equipment used to make beaded jewellery and use them to create your own designs. Examples will be shown and you will also refer to other designer's work for inspiration. A small amount of optional homework will be set each week to enhance your experience of the course and develop your design skills.

Could I gain a certificate?

At the end of the course you will receive a certificate of completion from your tutor.

What do I need to bring / have ready?

All tools and resources will be provided, however if you do have your own tools you can bring these with you. Make sure that any tools you bring are clearly marked with your own initials. Please bring an apron with you if you have one, tie long hair back and avoid wearing loose clothing and open-toed shoes. You will be working on a small scale so it is advisable to bring your glasses with you. Sometimes reading glasses are not suitable for close-up work, however your local supermarket will often supply some off the shelf glasses that will be more effective. Magnifiers will be available to use should you need them. Hand dexterity is also required to manipulate the materials. A notebook and pen is useful to take notes.

Further support and progression

If you need help whilst on a course with us, our Learner Support Advisor is available to discuss your needs. We offer a range of services, subject to eligibility, which can include practical support and/or financial assistance to ensure you feel fully supported while learning with us. For more information contact alsreferrals@northnorthants.gov.uk or call 01604 368023 (answerphone available). Visit our website www.northamptonshire.gov.uk/course-info for further information about our fees and concessions. Your tutor will inform you of further learning opportunities and progression during your course.

Health & Safety / Online Safety

When you enrol, please let us know if you require additional personal support to participate in this course. Your tutor will give you information about Health and Safety on the first day. For information on how to keep safe online go to https://safety.lovetoknow.com/Internet_Safety_Adult and <https://takefive-stopfraud.org.uk/> national awareness campaign. To report suspected scams, or get help and advice about preventing scams call the Citizens Advice consumer helpline on 03454 04 05 06.
