### Course Aim

This online course, using Zoom for delivery, will be free for all learners and enable you to learn more about the subject, develop new skills and also find out how participating in learning can support your wellbeing. The course enables learners to understand and apply depth of field and aperture when taking photographs.

### Course Outcomes

- Use Aperture Priority with either a DSLR or bridge camera having first explored features of the camera
- Use Aperture correctly to control depth of field in conjunction with ISO.
- Control White Balance for any situation you are in.
- Have a greater understanding of composition and colour theory.
- Use Shutter Speed creatively with knowledge and understanding.
- Understand how participating in learning can increase personal confidence and a sense of wellbeing.

### How will the course be taught?

The course will be taught online via Zoom and will be a live interactive class. Joining instructions along with unique log in for the session will be emailed to you by our support services team prior to the course start date so please check your email address prior to the class.

To take part in the course learners will need:

- A computer, laptop, phone or tablet connected to the internet and able to view a live video stream.

### What do I need to bring?

- A DSLR Camera or Bridge Camera – please have the manual if you still have it.
- 3 smallish objects (tangerine sized), a light source (like on the phone)
- We also recommend that you have a pen and notepad to hand during the sessions.
