Course aims

This online course, using Zoom for delivery, will be free for all learners and enable you to learn more about the subject, develop new skills and also find out how participating in learning can support your wellbeing. The course enable learners to apply and revise previously learnt basic knowledge and add new skills to photographic projects.

Course Outcomes

- Use back-button focussing for greater control in focussing a subject quicker.
- Use the histogram method for checking exposure.
- Use the camera flash creatively and utilise other light resources.
- Have a greater understanding of composition and experiment with some flat-lay and lowlight work.
- Have a greater understanding of portraiture and complete indoor photography projects.
- Understand how participating in learning can increase personal confidence - a sense of wellbeing.

How will the course be taught?

The course will be taught online via Zoom and will be a live interactive class. Joining instructions along with unique log in for the session will be emailed to you by our support services team prior to the course start date so please check your email address prior to the class. To take part in the course learners will need:
A computer, laptop, phone or tablet connected to the internet and able to view a live video stream.

What do I need to bring / have ready?

- A DSLR Camera or Bridge Camera – please have the manual if you still have it.
- 3 smallish objects (tangerine sized), a light source (like on the phone)
- We also recommend that you have a pen and notepad to hand during the sessions.
